Certificates. St. Johnsbury, Nov. 7, 1859. For the benefit af those afflicted with humors, I would say that my child, about seventeen months old, was troubled for some time with a sore and inflamed eye, which I suppose to be the effect of Scrofula humor. We applied various remedies recommended for humors, but it continued to grow worse until we had serious fears that the eve would be entirely destroyed. Fortunately, br. G. O. Wilson came to this place in August last, we then employed him. The child immediately began to get better, and in a very short space ately began to get better, and in a very short space of time was entirely cured. I have seen no return of the humor since.
